East meets west: philosophy and tech

Dave D'Silva, BMath

Project manager, tech developer, educator

Bridging the Gap by Jennifer Ferdinand, 2008
Commissioned Schrodinger equation painting

Schrodinger equation

$$H(t)|\psi(t)\rangle = i\hbar \frac{\partial}{\partial t} |\psi(t)\rangle$$

- Richmond Hill Volunteer of the Year (e.g. founding Media Prime of the YRP administered award-winning Richmond Hill Road Watch Committee, past chair of the PMI-Toronto PMO Community and Microsoft Project Users Group GTA, co-founder BitcoinNorth.ca, co-creator RBC Rogers Centre Legends of Cricket Live India vs. Pakistan 2007 Heart and Stroke Peace Match, 10K attending)
- National security, Defence Department, York Regional Police (YRP), Canadian Space Agency (CSA), Lockheed Martin “Skunk Works”, Atomic Energy Commission Limited (AECL), Investment Industry Regulatory Organization of Canada (IIROC)
- IP/Thesis: Algorithmically invert systemic value-robbing “friction” (micro-war) to unlock profit & impact via an innovation/productivity economic formula through a philosophy of quantum field theory, synergy experiment in Artificial Intelligence (AI) Distributed Ledger Technology (DLT) Microsoft Office 365 projects+operations Program Management Office (PMO) system personalized for each person
 - e.g. McKinsey's \$6T PriceMetrix.com AI DLT stockbroker behavioural tech (Phase II)

Community Engagement

- National Security, UN, Police, Defence Department, Intellectual Property Canada, Microsoft, PMI, MaRS SVX, Collider-X, York Angels
- Universities (Ryerson, York, Toronto)
- AI, Blockchain, Politician communities

National security agency

- “For the Good of Humanity”
 - Agent assessment
- Stealth campaign
 - leading to a Canadian Space Agency and Defence Department relevant Cleantech pilot project
 - to lower energy costs at York University’s new Markham campus

B United Nations 17 Sustainable Development Goals (SDG)

Initial project portfolio target 10 [SDG](#)

Genesis: A Bill Gates master plan

IMMSG founded as a health and wealth pact between Bill Gates (centre), and Dave D'Silva (top left), UW Computer Science Club, Ontario ([link](#))

Master plan roadmap & framework

- Exponential benefit emerging tech 3 phase refactoring roadmap, five-pillar framework for social enterprise projects, theory of change:
 - ★ 1 Peace & security of mind to chart our humanity,
 - ★ 2 AI care for humanity and our jobs,
 - ★ 3 Decentralized trading data & coding of truth,
 - ★ 4 Jobs, social justice, and education for families,
 - ★ 5 Power to the people: family, peace and joy

Phase I: POC (Proof of Concept)

- Launched 1989 into the Toronto Stock Exchange (TSX) and London Stock Exchange (LSX) as an inter-listed chained block trade Microsoft regulatory prototype AI
- AI designed to find Anti-Money Laundering (AML) patterns to support the Investment Dealer Association / Investment Industry Regulatory Organization of Canada (IIROC)

Phase II: MVP (Min Viable Product)

- Launched 2000 through TSX retail brokerages (ScotiaMcLeod) as AI DLT startup PriceMetrix.com,
 - “Star Trek” AI care model won \$M Canadian Revenue Agency (CRA) funding support
 - purchased by McKinsey, 2016
 - achieved \$6 trillion in investment assets, 2018

Phase III: GTM (Go to Market)

- Scaling Phase II \$6T system
 - 100X social enterprise (SROI/ROI ratio transfer)
 - GDP mult., anti-corruption, precedent, Smart City
 - Exp'l benefit social enterprise five pillar emerging tech project PMO framework as a socioeconomic change mgt (bijective feedback positive peer pressure) algorithm:
 - ★ 1 Peace & security of human & artificial mind MS core,
 - ★ 2 AI Care (Privacy by Design Ethical AGI),
 - ★ 3 DLT/Blockchain (Energy as a Human Right),
 - ★ 4 Jobs and social justice, pro family value education,
 - ★ 5 Nanotech clean energy MVPs to power Markham York campus, cyber mining, and Aerospace engines

C

★ 1 Peace and Security of Mind: Restorative justice, mental health, human and AI synergy system

"In recognition of your worthy efforts in creating a restorative justice framework that promotes human rights by bringing together people, organizations and cultures to resolve community issues involving bullying."

I commend you for your vision of replacing bullying with positive behavior to make communities stronger as a united force."

"Awareness, education, enforcement"

Majid Jowhari, Member of Parliament for Richmond Hill.

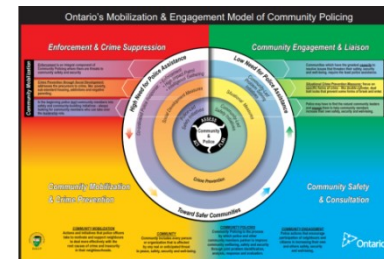

★¹ Peace & Security: Achievements

- Intelligence Augmentation (IA) AI
 - \$6 trillion without job loss (McKinsey [PriceMetrix](#))
- Reduced international friction
 - RBC Rogers Centre Legends of Cricket Live 2007 India vs. Pakistan Heart & Stroke Peace Match
 - unprecedented zero security incidents
- Court precedence set
 - Ontario Provincial Service (OPS)
 - Cultural Bullying PTSD case study background

C ★ 1 Peace & Security of Mind: Court precedent background

- Ontario Chiefs of Police Association Community Engagement & Liaison “green quadrant” [goal](#)

Corporate Communications Bureau, Forensic Identification Bureau, Planning & Research Bureau and Dave D'Silva

- York Regional Police (YRP) 2011 Business Plan
- “A blueprint for modern day immigration”
YRP Services Board comment to “Cultural Bullying: A Modern Day Plague” deputation

C Join us as donators, investors, clients, and sponsoring member firms

- Serious inquiries encouraged to review
- Phase III exponential benefit project criteria:
 - 100X SROI, GDP mult., anti-corruption, cultural bullying mgt, Smart City, 5 pillar theory of change
- Project portfolio
 - Privacy by Design Ethical AI, Ryerson power, Energy Blockchain, SmartTrafficGrid, Ghana GDP X, Neural Intelligence Augmentation (IA) AI device,
